To whom it may concern

**Re: Recommendation- Aspectus limited**

We write to recommend Aspectus Limited having used their products and services since 2018 at our camp in Masai Mara. We have been using solar water heating systems and outdoor/security lights supplied and installed by them and they have served us very well.

The products and services offered by Aspectus are of good quality and have no hesitation in recommending them to any organization seeking their products and service.

Yours Sincerely

John Kamau
